What A Sneeze Portends.

In almost every land, civilized and uncivilized, the act of sneezing is regarded with more or less superstition. There is an equivalent in nearly all languages for the "God bless you," of the Irish peasant when a person sneezed to declare the presence of a decided tickling sensation in his nostrils. To this salutation in France is added sometimes the phrase "And preserve you from the fate of Tycho Brahe," who is believed to have gotten rid of a "death of cold" by a single sneeze—which killed him. In England a regular formula is used: "Once for a wish, twice for a kiss, three times for a letter and four times for a disappointment."

In Italy the salutation is simply "Felicita," or "May you be fortunate." In India it is customary for one to say when one sneezes: "May you live," and the reply runs: "Long life to you." Should a Hindu chance to sneeze while he is going through his peculiar ablution practices in the Ganges, he will make a kind of sign over his face, stop in the ritual and begin all over again.

In ancient times the Romans, holding the idea that sneezing between noon and midnight was a good omen, believed that between midnight and noon it was most unlucky and if they should chance to sneeze while getting up in the morning they would at once get in to bed again. There must be some thing in this, especially on very cold mornings, but boys home for their holidays are not as rule superstitious and it might be difficult for them to impress their parents with a saving belief in this happy superstition.

The Germans say "Good health," because they maintain, and not without reason that sneezing is a warning of approaching catarrh and also marks the moment when a charm, a wish or a suggestion may drive it away. The Persians go further in this idea; they say what practically amounts to "Thank God," because they consider that the sneeze has actually driven away some evil spirit that has attempted to get into a man's body to feed upon his sacred fire.

The people of the Amazulu go even further than this into superstition and arrive at the stage of actual devil worship. No doubt they would style it "angel worship," but the things to which these so-called angels are supposed to lend themselves, put that high-sounding name quite out of the question. Their uncivilized familiar spirits are said to give some sign when they are near and able to help their votaries.

Andrew Carnegie has written to President Schurman, of Cornell University, offering to pay for the private filter plant contracted for by the college authorities. The offer will probably be accepted.

It is said that neither side wants arbitration in the Wabash railroad fight. Well, that coal strike arbitration has been quite enough to cure anybody of the arbitration habit.

The highest mountain in the moon is at least 35,000 feet; that is 5,000 feet higher than Mt. Everest.

Mr. Carnegie says he likes tall men. But men who are short seem to take to Mr. Carnegie.

The stores are all having their Spring openings—and so are the pocketbooks. It takes 99 threads of the spider to equal in size one of the silk worm.

The Price of Pleasure.

It is hard for a lovely woman to forego the pleasures of the life which she was created to enjoy and adorn. She may have to be busy all day in office or in store, yet she cannot deny herself the social pleasures which are offered her.

But the fatigue is often too great for her, and she suffers from headache and backache as a consequence of over-exertion.

Women who are tired and worn out will find a perfect tonic and nerve tonic in Dr. Pierce's Favorite Prescription. It cures headache, backache and the other ouches and pains to which women are subject. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I am so pleased with your instructions, I hardly know what thanks to give you for your kind favors," writes Mrs. Milo Bryant, of Lodi, Thomas Co., Ga. "I suffered so much with great pains in my back and the lower part of my stomach and irritation of the head, that at times I could hardly lie down. Could hardly get up in the morning, but after using three bottles of Favorite Prescription and two vials of Dr. Pierce's Pleasant Pellets, I am like a new woman."

Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

CRAB ORCHARD.

Miss Hattie Harris is quite sick. Grip is visiting many homes here. Mr. Dan Holman departed this life Sunday last, after weeks of intense suffering from cancer of the stomach. He was anxious and waiting for the summer. All his family were with him in his last hours to minister to his every want and make death seem easier. His remains were taken to Hae Lick for burial. Our sympathy goes out to those bereaved.

Sunday morning at 7:15, Mrs. Eva Ward passed from this life to her eternal home of rest, to the place that Jesus had gone to prepare for her and where she is now dwelling with all the loved ones gone before and their voices are united in singing the songs of the redeemed in Jesus. Mrs. Ward was one of Crab Orchard's oldest citizens, having moved with her father, Col. Lindway, from Virginia when she was a child. Here she grew to womanhood and was married to Mr. A. F. Smith, of Virginia, but at that time a citizen of Crab Orchard. He preceded her to the grave 18 years ago. In 1880 she married to Col. R. B. Ward of this place. He also preceded her to the grave, dying in 1891. Mrs. Ward had been a consistent member of the Baptist church since 1864, the year it was dedicated. Her home was a home for the preachers of the gospel so long as she kept house, and until her health failed and years grew on her, she lived up to her Christian duties and privileges. Her funeral was preached at the residence of her sister, Mrs. M. L. Harris, by Rev. R. H. Mahony, assisted by Rev. O. M. Huey, after which the body was buried beside her first husband in the old church yard. We are grieved, and weep not, but should rather rejoice because we know she now mingles with the dear ones she loved so fondly and from whom she had long been separated.

The description and pedigree of Digby Dare, the magnificent stallion belonging to D. S. Carpenter, of Hustonville, will appear next issue. This splendid piece of horse flesh has wintered well and is now in the pink of condition. He will stand at \$20 to insure a living colt, which is dirt cheap, considering the kind of colts that he produces. Mr. Carpenter had Digby Dare worked in harness a short while last fall, when he showed a 2:30 gait. His son, Prospect, owned by Mr. Ed. Carpenter, will make a short season. Prospect is the coming three-year-old which has attracted so much attention and for which Mr. Carpenter has refused a small fortune.

Wakeful Children.

For a long time the two-year-old child of P. L. McPherson, 59 N. 10th St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by Craig & Hocker.

A SUMMARY of the life insurance companies in the United States prepared by The Spectator shows assets on the first of January aggregating \$2,100,148,473—an increase for the year of \$187,778,100—and the surplus over all liabilities amounted to \$235,629,768. The payments to policy holders were very nearly 200 million dollars, and the total amount of insurance was not much less than one billion, an increase of nearly one million during the year. In the last five years the amount of insurance in force has increased 53 per cent. These figures relate to ordinary business. Industrial insurance in force on January 1 amounted to \$1,305,184,072, an increase of 64 per cent. in five years. These figures are striking evidences of prosperity with some people.

THE secretary of the Thomas Jefferson Memorial Association of the United States has sent a circular letter to the theatrical managers of the country, asking them to give to the Jefferson memorial fund one per cent. of the gross receipts of the performance of Monday, April 13—that date being the 160th anniversary of the author of the Declaration of Independence. Joseph Jefferson, the actor, has written a letter warmly approving of the suggestion, and other actors have as warmly accepted it.

It is a comfort to reflect that consumption has decreased 39.5 per cent. in its death records since 1840. Pneumonia may be more devastating or not, but it can never have the dread to its name that consumption has had, for pneumonia is a disease which usually yields to scientific treatment and the resistance of a good constitution, but consumption is nature's worst treachery to humanity. The battle has been long against it, but the results show at last.

AT the Jackson Day banquet by the Iroquois Club at Chicago, Congressman DeArmand, of Missouri, declared a presidential candidate could only be taken from among those who have loyally supported the party in 1896 and 1900. Of course any other will not be considered, nor would be stand a ghost of a chance if nominated. The rank and file will never approve of honoring a traitor.

WHEN a fellow sets his head on killing himself, about the best thing to do is to let him go and do it. Jacob Bruno, of Iowa City, Ia., determined to kill himself and this is the way he did it: He loaded a gun with a three-cornered file and the trigger being broken, placed the butt of the gun in the stove and the muzzle against his breast and waiting for the heat to fire the weapon. The file went through his heart.

THOSE of us who have read Emmett G. Logan's crisp and good editorial for a score of years regret that his connection with the Louisville Times will sever May 1. The brilliant writer is going to his farm down in Warren county to raise corn, wheat, tobacco, Cain, etc.

Moore and his excellent wife, and wished them abundant happiness in their new home, Birmingham, Ala.

The woods are full of candidates for State offices. I would make a state, but the people might break it. Tricks are not so easily played at the polls, as they are in conventions, but even in a convention a chairman cannot be elected, out of regular order, especially when he doesn't get a majority of the delegated votes; neither can the rulings of the proper chairman be declared void, unless an appeal is taken to the convention and carried by a majority vote. These are cardinal principles, and by them the chairman of this judicial district committee, alone had the power to act at Danville, and his rulings are bound to prevail. So it is safe to predict that the State Central Committee will declare Judge Saufley and J. S. Owsley the nominees of that convention.

A GENTLEMAN who wanted to economize stopped his paper while we were at Danville Monday. On Wednesday morning we received the following card from him: Can't do well without the INTERIOR JOURNAL. Send me a copy twice a week until I countermand the order.

THE SITUATION—Luther Wilkinson, one of the Negroes who caught small-pox from the late Terry Mobley, died Tuesday Mrs. Mobley, step-mother of Mr. Mobley, aged 72, is the only new case reported. Dr. Bailey visits the patients, who live near Mt. Salem, daily, and is doing all in his power to prevent a spread of the loathsome disease.

MILLER—Mrs. Sallie Miller, aged 60, died at the home of her brother, Judge J. M. Phillips, in Kansas City, Saturday and was buried there. Mrs. Miller left Stanford the middle of November and was then in a very feeble condition, many thinking she could not stand the long trip. She was a very accomplished good woman and her many friends here and elsewhere sorrow to her taking away.

DANVILLE correspondents are working over-time in their efforts to make the outside world think that Lincoln county is full of small-pox. There are only three cases in the county and they are in the Mt. Salem section, 17 miles from Stanford, and every precaution is being used to prevent a spread of it. By the way we have seen nothing in the Danville or other papers about a Central University student having a well-developed case of the loathsome disease.

AFTER months of suffering, good old Mrs. W. J. Carson passed into the great beyond Tuesday and she was buried in the Hustonville cemetery Wednesday afternoon in the presence of a large concourse of sorrowing friends. Two children survive Mrs. Carson, Mrs. Dayton and Mr. J. K. Carson.

SEVERE ATTACK OF GRIP

Cured By One Bottle Of Chamberlain's Cough Remedy.

"When I had an attack of grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank H. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only be of less duration but the pains were far less severe and I had not used the contents of one bottle before Mr. Grip bid me adieu." For sale by Craig & Hucker.
